- Meeting covenants of lenders.

The Board is responsible for ensuring capital management within a broad framework of risk management.

17. CREDIT RATING SUMMARY OF THE ISSUE AND ISSUER

Credit Rating of Issuer: ONE Bank Limited

Date of Rating	Validity	Rating Action	Long Term	Short Term	Rated By	Outlook
March 10, 2021	March 09, 2022	Surveillance	AA	ST-2	Emerging Credit Rating Ltd (ECRL)	Stable

Rating Rationale:

Emerging Credit Rating Limited (ECRL) has affirmed **AA** (Pronounced as Double A) long term credit rating and **ST-2** short term credit rating to ONE Bank Limited (*hereinafter referred to as "OBL" or "The Bank"*) based on audited financials of FY2017-2020 and other available information up to the date of rating declaration. The outlook on the rating is **Stable**. The ratings are consistent with ECRL's methodology for this type of company. ECRL considered financial performance, capital base, asset quality, management experience, liquidity management and prospect of the industry while assigning the rating. ECRL is concerned about the real scenario of NPL which will take place after the withdrawal of classification bar imposed by RB for the pandemic time. Based on the real NPL scenario, notably higher provision might be required to cover up the potential bad loans and OBL is under provision-deferral facility of BDT 805.20 million which will have to be provided by FY2021. These altogether along with fall in net interest income for last two years will result deterioration of profitability which is a major potential risk for CBL.

The banking industry has been facing many challenges like slow growth of credit, deposit, excess liquidity, recovery of loans and advance etc. Banks are more cautious about disbursing new loans since maximum interest rate has a cap of 9% and there is no premium of additional risk. Recent COVID-19 pandemic situation has critically worsened overall economic and business environment in the country. With a view to facilitating the existing business environment and aligning with the macroeconomic cycle Bangladesh Bank relaxed the loan classification and provisioning rules for the year 2020 (Jan-Dec) and for the quarter April-June 2021 to facilitate businesses of the country and to encourage participation of the banks in disbursing loans to effected business.

BB has increased the cap of ADR/ IDR by 2% to increase the lendable fund and to increase the liquidity of the Bank, BB has reduced the CRR (Cash reserve requirement) from 5% to 3.5% in daily basis and 5.5% to 4% in bi-weekly basis and repurchase rate (repo) reduced to 4.75% from 5.25%, reverse repo rate to 4% from 4.75%. These all initiatives improved the liquidity position of the banks. The banking sector is infiltrated with all-time high excess liquidity of BDT 2,047 billion as on December 2020 due to low credit growth and also initiatives taken by the regulator. The year was started with excess liquidity of BDT 1,034 billion (end of January 2020) but at the end of the year the excess liquidity became almost double.

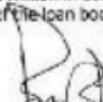

Non-performing loan was 8.60% in FY2020 as opposed to 9.24% in prior year. Although the NPL ratio of the bank showed better as compared to earlier year, however, the real picture of NPL did not reflect in the latest financial statements as the bank did not change classification status of loans as per Bangladesh Bank instruction not to classify loans in the year 2020 (Jan to Dec) due to the ongoing covid-19 pandemic. As per correspondence with OBL's management, the bank has formed two separate Special Asset Management Units namely SAM-1 and SAM-2 with a view to expedite recovery from classified loans in addition to the efforts at branch level.

The bank has rescheduled BDT 2,643.40 million in 2020 and did not write off any bad loan during the year. The rescheduled loan was 1.20% of the loan book of the bank while NPLs and rescheduled loans

together represented 9.80% of the loan book in FY2020 as compared to 11.02% in FY2019. Again, this improvement was the consequence of the flexibility on loan classification in FY2020. On the other hand, the banks top 30 borrowers had an outstanding amount of BDT 70,578.80 million which represent 32.03% of the total loan portfolio of the bank as on 31 December, 2020.

OBL has taken initiatives to strengthen its capital base. The bank issued three subordinated bonds and a perpetual bond where one subordinated bond was fully paid off by the end of 2020. Capital to risk weighted assets ratio (CRAR) of the bank has exceeded the regulatory requirement. CRAR stood at 13.02% against regulatory requirement of 12.50% under Basel III at the end of 2020. However, this is likely that the risk weighted assets of the bank will get higher after the relaxation of classification of the loans and the situation would ever get worse if net interest income consistently falls due to the impact of interest rate cap. As a result, there is a risk that CRAR of the bank might fall in the future.

In FY2020, there was a major change in the deposit mix of the bank. Since there is a regulatory cap on lending rate of 9% and deposit rate of 6%, OBL has increased its funding through CASA (Current Account Saving Account) which is relatively cheaper as compared to term deposit. CASA represents 22.82% of the total fund of the bank in FY2020 as compared to 17.65% in FY2019.

In FY2020, deposit growth of OBL stood at only 0.51%, significantly down from 12.61% in the prior year, on the other hand, gross loan growth of OBL in FY2020 was 2.38% which was 6.20% in the last financial year. OBL's loan to deposit ratio stood at 85.33% in the FY2020 which was within the required ceiling of Bangladesh Bank's directive (no more than 87% for general banks, increased for the covid-19 pandemic).

OBL maintained CRR and SLR as per the regulatory requirement. The bank accounted a surplus CRR of BDT 5,423.20 million and a surplus SLR of BDT 5,474.76 as on December 31, 2020 indicating that the Bank has excess liquidity to manage its position in stressful situation. However, as per the liquidity statement, the bank had liquidity gap in short term BDT 33,247.65 million and BDT 32,163.96 million for 1-3 months and 3-12 months bucket respectively but overall there was liquidity surplus of BDT 16,946.73 million.

In terms of profitability, in FY2020, the bank could not perform well due to the pandemic situation, interest cap imposed by BB as well as high competition among the banks and NBFIs. In this period, the bank experienced a low credit growth along with the interest income of the bank fell remarkably by 15.81% due to implementation of maximum 9% interest rate on loans and advances. On the other hand, the interest paid on deposits and borrowings also experienced a fall by 9.42% to stand at BDT 16,266.41 million by the end of FY2020 where OBL also adopted maximum deposit rate of 6% as per the instruction of Bangladesh Bank.

As per correspondence with OBL's management, since interest rate on loan is fixed, the situation is gradually being developed by re-pricing the cost of deposit. In the early of 2020, the cost of deposit of the bank was more than 7% which is expected below 5% by June 2021. This will enhance the net interest income in coming days.

As a part of strategy to lessen the borrowing cost, the bank managed to reduce the short term deposit cost remarkably by 41.38% through offering interest below the 5% but saving deposit as well as term deposit cost had been increased by 11.23% and 2.57% respectively in FY2020 as compared to FY2019 since higher interest rates were agreed earlier.

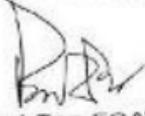

In FY2020, for the first time among the reported years, non-interest income became the major income source with having 57.56% (42.18% in FY2019) of total operating income in its bucket whereas the interest income, core income of the bank comprised 42.44% of total operating income in the same period as compared to 57.82% in FY2019. The shift happened due to the interest rate cap as well as ongoing covid-19 pandemic.

Total operating income of the bank has decreased by 14.27% but operating cost only fell by 2.64% since most of the operating costs are fixed in nature. This has resulted the cost to income ratio of the bank to reach at 63.43% in FY2020 from 55.87% in FY2019 (47.26% in FY2018) this is also distressing for sustainability of the bank.

Profit before provision and taxes of the bank decreased to BDT 2,924.99 million in FY2020 with a declining rate of 28.99% from the previous year due to negative growth in net interest income along with high operating expenses during the year. On the other hand, provision expense of the bank has decreased by 24.53% due to the relaxation for the classification of the loan instructed by Bangladesh Bank. In contrast, the post-tax profit of the bank fell significantly by 20.69% to stand at BDT 1,313.02 in FY2020 derived from the decrease in operating income of the bank particularly the net interest income which is a major concern for potential growth of the bank.

ECRL views OBL's outlook as **Stable** considering the business position and capital base, however, ECRL is concerned about the uncertainty related to covid-19 pandemic and decline in net interest income caused by implementation of interest rate cap.

The Subordinated Bond, which qualifies as Tier-II capital for ONE Bank Limited, is rated lower than OBL's standalone rating, because of the Subordinated position of the Bond relative to the OBL's depositors and other senior creditors.

Successful issuance of the Bond will strengthen the capital base of ONE Bank Limited. The proceeds from the Bond will facilitate the long term business of the bank leading towards business expansion, enriching credit portfolio and providing supportive cushion to the minimum capital requirement.

Features of the bond include seven years of tenor, redemption will start at the end of year three and there will be five consecutive repayments till the end of the year seven. The bond is featured as floating rate non-convertible subordinated bond with floor rate at 7.50% and capped at 10.50%, half yearly coupon payment. The rate will be determined as benchmark rate plus a margin of 2.50%. Benchmark rate will be calculated as average of most recent month's published fixed deposit rates (6 months tenor) of all Private Commercial Banks (excluding Islamic banks and Foreign Banks). Standard Chartered Bank is playing the role of mandated lead arranger and Sena Kalyan Insurance Company Limited is acting as a trustee of the bond.

The covid-19 pandemic has been remaining for very long time with its different variant and wave has made the situation difficult manage and impacted the performance of the bank in terms of business growth, asset quality, capital base, profitability and many more. The financial sector as a whole has been struggling to persist in the last couple of years.

ONE Bank Limited has been exposed to sluggish growth in terms of total assets, loans and advances as well as deposit from FY2020 and onwards due to covid-19 pandemic has been remaining for very long time with its different variant and wave impacting many businesses.

In the first six months total asset of the bank had reached EDT 308,183.67 million which grew by only 1.54% as compared to FY2020. In terms of previous years' performance, in FY2020 total assets reached BDT 303,516.66 million with a growth of merely 1.89% compared to 11.96%, 17.10% and 20.70% in the previous three years. Besides the loans & advances covering the largest portion (72.60%) of the bank's asset composition, investment (9.88%) and cash (9.73%) were the large contributors.

Non-performing loan was 8.60% in FY2020 as opposed to 9.24% in prior year. Although the NPL ratio of the bank showed better as compared to earlier year, however, the real picture of NPL did not reflect in the latest financial statements as the bank did not change classification status of loans as per Bangladesh Bank instruction not to classify loans in the year 2020 (Jan to Dec) due to the ongoing covid-19 pandemic. As per correspondence with OBL's management, the bank has formed two separate Special Asset Management Units namely SAM-1 and SAM-2 with a view to expedite recovery from classified loans in addition to the efforts at branch level.

This is worth mentioning that the moratorium period on loan classification has been extended till December 31, 2021 provided that if borrowers repay 25% of their installments within 31 December 2021. As on June 30, 2021 the NPL was again slightly higher (9.19%) than FY2020 because in the quarter one of FY2021 (Jan to Mar) there were no bar on loan classifications.

The bank has rescheduled BDT 2,643.40 million in 2020 and did not write off any bad loan during the year. The rescheduled loan was 1.20% of the loan book of the bank while NPLs and rescheduled loans together represented 9.80% of the loan book in FY2020 as compared to 11.02% in FY2019. Again, this improvement was the consequence of the flexibility on loan classification in FY2020. On the other hand, the banks top 30 borrowers had an outstanding amount of BDT 70,578.80 million which represent 32.03% of the total loan portfolio of the bank as on 31 December, 2020.

OBL has taken initiatives to strengthen its capital base. The bank has already issued three subordinated bonds and a perpetual bond where one subordinated bond was fully paid off by the end of 2020. Capital to risk weighted assets ratio (CRAR) of the bank was above the regulatory requirement in FY2020 (13.02%) and at the end of June 2021 12.82% against the regulatory requirement of 12.50%. However, this is likely that the risk weighted assets of the bank will get higher after the relaxation of classification of the loans and the situation would even get worse if net interest income consistently falls due to the impact of interest rate cap. As a result, there is a risk that CRAR of the

bank might fall in the future. As on June 30, 2021 CRAR of the bank slightly fell to 12.82% due to increase in risk weighted assets of 5.05% as oppose to eligible capital which increased by 3.50% in the same period. The increase in risk weighted assets was the consequence of sudden increase in NPL in the first half of FY2021. The new bond will enable the bank to have better CRAR in upcoming year.

In FY2020, there was a major change in the deposit mix of the bank. Since there is a regulatory cap on lending rate of 9% and deposit rate of 6%, OBL has increased its funding through CASA (Current Account Saving Account) which is relatively cheaper as compared to term deposit. CASA represents 22.82% of the total fund of the bank in FY2020 as compared to 17.65% in FY2019.

In FY2020, deposit growth of OBL stood at only 0.61%, significantly down from 12.61% in the prior year, on the other hand, gross loan growth of OBL in FY2020 was 2.38% which was 8.20% in the last financial year. OBL's loan to deposit ratio stood at 85.33% in the FY2020 which was within the required ceiling of Bangladesh Bank's directive (no more than 87% for general banks, increased for the covid-19 pandemic).

In terms of profitability, in FY2020, the bank could not perform well due to the pandemic situation, interest cap imposed by BB as well as high competition among the banks and NBFIs. In this period, the bank experienced a low credit growth along with the interest income of the bank fell remarkably by 15.91% due to implementation of maximum 9% interest rate on loans and advances. On the other hand, the interest paid on deposits and borrowings also experienced a fall by 9.42% to stand at BDT 16,266.41 million by the end of FY2020 where OBL also adjusted deposit rates to match with its lending rates.

As a part of strategy to lessen the borrowing cost, the bank managed to reduce the short term deposit cost remarkably by 41.38% through offering interest below the 6% but saving deposit as well as term deposit cost had been increased by 11.23% and 2.57% respectively in FY2020 as compared to FY2019 since higher interest rates were agreed earlier.

Total operating income of the bank has decreased by 14.27% in FY2020 but operating cost only fell by 2.84% since most of the operating costs are fixed in nature. This has resulted the cost to income ratio of the bank to reach at 63.43% in FY2020 from 55.87% in FY2019 (47.26% in FY2018) this is also distressing for sustainability of the bank.

Profit before provision and taxes of the bank decreased to BDT 2,924.99 million in FY2020 with a declining rate of 28.99% from the previous year due to negative growth in net interest income along with high operating expenses during the year. On the other hand, provision expense of the bank has decreased by 24.53% due to the relaxation for the classification of the loan instructed by Bangladesh Bank. In contrast, the post-tax profit of the bank fell significantly by 20.89% to stand at BDT 1,313.02 in FY2020 derived from the decrease in operating income of the bank particularly the net interest income which is a major concern for potential growth of the bank.

In the first half of FY2021, OBL experience a good growth in terms of net interest income as well as net profit after tax as compared to the last year's corresponding period. However, this is subject to annual adjustment of provision and other potential expenses.

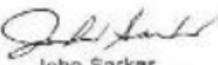

ECRL views OBL's outlook as **Stable** considering the business position and capital base, however, ECRL is concerned about the uncertainty related to covid-19 pandemic and decline in net interest income caused by implementation of interest rate cap.

As on 30 June 2021

Independent Auditors' Report

To the Shareholders of ONE Bank Limited

Report on the Audit of the Consolidated and Separate Financial Statements

Opinion

We have audited the Consolidated Financial Statements of ONE Bank Limited, and its subsidiaries ("the Group") as well as the Separate Financial Statements of ONE Bank Limited ("the Bank"), which comprise the Consolidated and the Separate Balance Sheet as at 30 June 2021 and the Consolidated and Separate Profit & Loss Accounts, consolidated and separate Statements of Changes in Equity and Consolidated and Separate Cash Flow Statements for the half year then ended, and notes to the Consolidated and Separate Financial Statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated Financial Statements of the Group and Separate Financial Statements of the Bank give a true and fair view of the Consolidated Balance Sheet of the Group and the Separate Balance Sheet of the Bank as at 30 June 2021, and of its Consolidated and Separate Profit and Loss Accounts and its Consolidated and Separate Cash Flows for the half year then ended in accordance with International Financial Reporting Standards (IFRSs), as explained in note 4.02.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated and Separate Financial Statements section of our report. We are independent of the Group and the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), Bangladesh Securities and Exchange Commission (BSEC) and Bangladesh Bank, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) bye laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 4.02 to the Financial Statements, which describes the basis of accounting. The Financial Statements are prepared for the purpose of issuing consolidated based. As a result, the financial statements may not be suitable for other than that for which these are prepared. Our opinion is not modified in respect of this matter.

Other matter

The Consolidated Financial Statements of the group and also Separate Financial Statements of the Bank as at and for the year ended 31 December 2020 were audited by ACNABIN Chartered Accountants and expressed an unmodified opinion on those statements on 28 March, 2021.

Other Information

The other information comprises all of the information in the Annual Report other than the consolidated and separate financial statements and our auditors' report thereon. However, our opinion on the Consolidated and Separate Financial Statements does not cover the other information as it is not was applicable for Interim Audit and we do not express any form of assurance conclusion thereon.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the Consolidated Financial Statements of the Group and also Separate Financial Statements of the Bank in accordance with IFRIs as explained in note #02, and for such internal control as management determines is necessary to enable the preparation of Consolidated and Separate Financial Statements that are free from material misstatement, whether due to fraud or error. The Bank Company Act, 1991 and the Bangladesh Bank Regulations require the Management to ensure effective internal audit, internal control and risk management functions of the Bank. The Management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

In preparing the Consolidated and Separate Financial Statements, management is responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated and Separate Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated and Separate Financial Statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated and Separate Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated and Separate Financial Statements, including the disclosures, and whether the Consolidated and Separate Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated and Separate Financial

Statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

2.23: IFRS 16: Leases

IFRS 16 is effective from 01 January 2019 as adopted by Institute of Chartered Accountants of Bangladesh. IFRS 16 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments.

ONE Bank Limited has applied IFRS 16: "Leases" using modified retrospective approach where the bank measured the lease liability at the present value of the remaining lease payments and recognized a right-of-use asset at the date of the initial application on a lease by lease basis.

Upon lease commencement the bank recognizes a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the lease liability plus any initial direct costs incurred by the Bank.

The lease liability is initially measured at present value of the future lease payments discounted using the discount rate implicit in the lease (i.e. weighted average cost of deposit). Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others.

The Bank has elected not to recognize right-of-use assets and lease liabilities for leases of low value assets and short term lease, i.e. for which the lease term ends within 12 months of the date of initial application and ATM & Sub-branch rent (considering the same as low value assets). The Bank recognizes lease payments associated with these leases as expenses.

4. Carrying value of investments in subsidiaries by the Bank	
<p>The Bank has invested in equity shares of its two subsidiaries, namely ONE Securities Limited and ONE Investments Limited. As at 31 December 2021 the carrying value of these investments were BDT 2,490.50 million.</p> <p>Operations of these two subsidiaries are mainly dealing with the investments in capital market. And by nature, the capital market of the country is not under stable position. Hence, the investments in these subsidiaries are subject to impairment. While impairment testing, the management is required to consider various guidelines of Bangladesh Bank, Bangladesh Securities and Exchanges Commission and other regulators. As the impairment testing is of complex and is significant to the Group's preparation of financial statements, we have considered it as a key audit matter.</p>	<p>We reviewed Management's analysis of impairment assessment and recoverable value calculation of the investments in accordance with IAS 36.</p> <p>In particular, our discussions with the management of the Bank were focused on the continued appropriateness of the value in use model, the key assumptions used in the model, the reasonably possible alternative assumptions, particularly where they had the most impact on the value in use calculation.</p> <p>We also checked mathematical accuracy of the model, recalculated discount rate used within the model, inputs used in the determination of assumptions within the model were challenged and corroborating information was obtained with reference to external market information, third-party sources.</p>

5. IT systems and controls	
<p>The Bank's key financial accounting and reporting processes are significantly dependent on the automated controls over the Bank's information systems. As such there exist risks that gaps in the IT control environment, including automated accounting procedures, IT dependent manual controls and controls preventing unauthorized access to systems and data could result in the financial accounting and reporting records being materially misstated.</p> <p>The IT systems and controls, as they impact the financial recording and reporting of transactions, is a key audit matter.</p>	<p>We performed audit procedures to assess IT systems and controls over financial reporting, which included the following:</p> <ul style="list-style-type: none"> • Tested the sample of key controls operating over the information technology in relation to financial accounting and reporting systems, including system access, system change management and computer operations. • Assessed the management's evaluation of access rights granted to applicants relevant to financial accounting and reporting systems and tested resolution of a sample of exceptions. • Assessed the operating effectiveness of controls over granting, removal and appropriateness of access rights. • Tested the specific application controls for key financial reporting controls.

Other Information

Management is responsible for the other information. The other information comprises all of the information in the Annual Report other than the consolidated and separate financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us when it is prepared, and the same is likely to happen after the date of this auditor's report.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the consolidated financial statements of the Group and also the separate financial statements of the Bank in accordance with IFRSs as explained in note # 2, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error. The Bank Company Act, 1991 as amended and the Bangladesh Bank Regulations require the management to ensure effective internal audit, internal control and risk management functions of the Bank. The management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as

fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

2.24 IFRS 16: Leases

IFRS 16 is effective from 01 January 2019 as adopted by Institute of Chartered Accountants of Bangladesh. IFRS 16 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments.

ONE Bank Limited has applied IFRS 16: "Leases" using modified retrospective approach where the bank measured the lease liability at the present value of the remaining lease payments and recognized a right-of-use asset at the date of the initial application on a lease by lease basis.

Upon lease commencement the bank recognizes a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the lease liability plus any initial direct costs incurred by the Bank.

The lease liability is initially measured at present value of the future lease payments discounted using the discount rate implicit in the lease (i.e. weighted average cost of deposit). Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others.

The Bank has elected not to recognize right-of-use assets and lease liabilities for leases of low value assets and short term lease, i.e. for which the lease term ends within 12 months of the date of initial application and ATM & Sub-branch rent (considering the same as low value assets). The Bank recognizes lease payments associated with these leases as expenses.

On the balance sheet, right-of-use assets have been included in the fixed assets and lease liabilities have been included in other liabilities.

*ONE Bank Limited acquired 3,108,740 no. of shares of IFIC Bank Limited under a Sale and Buy Back Agreement dated August 10, 2005. The Buy Back Customers failed to exercise the purchasing option within the terms of the Agreement and upon expiry, ONE Bank Limited placed the shares to IFIC Bank Limited for transfer to ONE Bank's name. As the IFIC Bank was delaying transfer of the shares, ONE Bank Limited filed a suit before the Honorable High Court Division of the Supreme Court of Bangladesh for transfer of the shares in favor of ONE Bank Ltd. The Court directed IFIC Bank to transfer the said shares including Bonus Shares in the name of ONE Bank Ltd. Subsequently, the matter was raised in the Appellate Division. Presently, a civil review petition of ONE Bank Limited is lying before the Honorable Appellate Division of the Supreme Court of Bangladesh against the judgement passed by the same court for hearing. OBL has taken a legal opinion regarding the above issue and the opinion has stated that there is a fair chance that the Honorable Appellate Division may uphold the decision of the Honorable Company Court in Company Matter No. 157 of 2007 allowing the prayer of ONE Bank Ltd. for rectification of Share register of IFIC Bank Ltd.

The total market value of 68,737,959 shares of IFIC Bank Limited as of 31 December 2021 was Tk.1,161,671,507 exceeding the original investment by Tk.900,690,007.

In addition to the above Bonus Shares, the payment of Cash Dividend of Tk.10,588,625 as declared by the IFIC Bank Limited for the year 2011 has also remained pending.

* The Bank was supposed to keep provision amounting to Tk. 2,060.55 crore against total loans and advances. But in response to the Bank's request, Bangladesh Bank has allowed (vide letter no DOS (CAHS) 1157/01 (Dividend)/2022-2295 dated 28 April 2022) to defer the additional provision requirement of Tk. 967.99 Crore (General Provision BDT 661.33 crore and Specific Provision BDT 306.66 crore) over the next 5 years (i.e. 2022 to 2026). While calculating the provision, the Bank deducted Tk. 967.99 crore as the deferred provision in compliance with the letter mentioned above. As such total required provision has been worked at Tk. 928.45 crore after netting off BDT 29.35 Crore additional provision kept on the Unclassified Loans and Advances (Tk. 2,090.55 crore - Tk. 1122.10 crores = Tk. 928.45). As per the condition mentioned in the above letter, from 2022, the bank must first adjust the specific provision and then the general provision. Besides, Bangladesh Bank also provides MCC for a maximum 5% stock dividend for the year ended 31 December 2021.

51 Workers Participation Fund and Welfare Fund

SRO-336-AN/2010 (dated October 5, 2010 issued by the Ministry for Labour and Employment) states the status of business of certain institutions and companies along with Bank and Insurance companies as "Industrial Undertakings" for the purposes of Chapter- XV of the Bangladesh Labour Act, 2006 (as amended up to 2013) which deals with the workers' participation in company's profit by way of 'Workers' Participation Fund' and 'Welfare Fund'. This Act requires the "Industrial Undertakings" to maintain provision for workers' profit participation fund @ 5% on net profit.

Since this requirement contradicts with 'section 11' of the 'Bank Companies Act 1991 (as amended up to 2013)', Banks in Bangladesh took up the issue collectively through the 'Association of Banks Bangladesh Limited (ABB)'. ABB wrote a letter to 'Ministry of Finance' of the Government of People's Republic of Bangladesh on 07 March, 2016 to draw attention of Honorable Finance Minister regarding relevance and applicability of Chapter XV of the Bangladesh Labour Act, 2006 (amended up to 2013) for Bank Companies and to obtain a directive on the issue. The 'Ministry of Finance' opined that the WPPF should not be relevant for Bank Companies and therefore, it should not be applied there.

The ABB also sought an opinion on this issue from Bangladesh Bank. Subsequently, Bangladesh Bank agreed on all the logic and legal opinion collected by the ABB and expressed their consensus with them on 29th November, 2016 i.e., Inapplicability of Chapter XV of the Bangladesh Labour Act, 2006 (amended up to 2013) in Bank Companies. In this backdrop, the 'Ministry of Finance' has given their instruction, vide letter no. 53.00.0000311.22.000.17.130 dated February 14, 2017 for not applying Chapter XV of the Bangladesh Labour Act, 2006 (amended up to 2013) in Bank Companies. Therefore, no provision in this regard has been made in the financial statements for the year ended on December 31, 2021.

52 Number of employees of the Bank

The number of employees engaged for the whole year or part thereof who received a total remuneration of Tk. 36,000 p.a. or above were 2,577 (2020: 2,425).

53 Coverage of External Audit

The external auditors of the Bank, ACNABIN, Chartered Accountants worked about 7,800 person hours. They have reviewed more than 80% of the Bank's risk weighted assets as at the Balance Sheet date.

54 Events after the balance sheet date

The Board of Directors has recommended 5% stock dividend in its 31st meeting held on 30 April 2022 based on NOC from Bangladesh Bank vide letter # DOS (GMS) 1157/41 (Dividend)/2022-2295 dated 28 April 2022 subject to the approval of the Shareholders at the next Annual General Meeting.

A separate Division for Islami Banking has been formed in Corporate Head Office to monitor and comply with the Rules & Principles of Islami Sharī'ah and other Regulatory bodies.

1.12 Deposit Mobilization & Profit Distribution Model

The main function of a Islami Bank is to collect deposits from the public and invest those deposits for the development of Agriculture, Industry, Trade and Commerce to make a profit & distributed it to their Depositors. So deposit is treated as life blood of financial Institution. OBL AL NOOR Islami Banking follows the method of Income Sharing Ratio – ISR for profit distribution to the Customers.

ISR means Income Sharing Ratio. According to ISR module the Bank do contract with customer for Investment Income Sharing. As example if sharing ratio of a customer & a Bank is 80:20 it means the client shall get 80% & the Bank shall get 20% as Management fee from the investment income of deposit. There is no proclamation of rate either provisional or fixed and final. It is to pronounce that customers open the Bank Account with uncertainty about profit from deposit. After receiving the deposit the Bank invest the fund in various Business sectors in compliance to Shari'ah principle. Keeping a portion of this income (suppose 5%) in profit equalization reserve and deducting others provisions, remaining portion of income is accounted as distributable to the depositors. Considering this profit as the profit of total deposit for concern period, income share of each deposit client is accounted against their deposit.

In this situation, we may provide a probable competitive acceptable provisional profit rate of all the Mudaraba Deposit Products and at the end of the year these rates will be adjusted with final rates derived from Income Sharing Ratio –ISR. Final Rates shall be adjusted with provisional disbursed rates giving up the claim by the Bank on the amount disbursed if the final rates become lower upon the basis of "Ihsan" of Islami Shari'ah principle. On the other hand if the Final Rates become higher than disbursed rates, the amount will be credited to the concerned Mudaraba Deposit Customers Accounts upon the basis of principle of Islami Shari'ah.
